Evaluation Form

Course: Wireless Networks II, Spring 2004

1. Overall Course

The course has fulfilled your expectations

<table>
<thead>
<tr>
<th></th>
<th>Fully</th>
<th>in major parts</th>
<th>partially</th>
<th>only in small parts</th>
<th>not at all</th>
</tr>
</thead>
</table>

2. The content of the course was

- interesting
- relevant to a project
- too difficult
- too easy

3. The amount of material in each minimodule was

- too much
- too little
- too superficial

4. Relation to other courses (pls. specify details further below)

- there was major overlap to other courses
- Needed background knowledge was not given in previous courses

5. The Exercises were

- interesting
- too difficult
- too easy
- too lengthy
- too short
- No opinion, since we did not do the exercises

6. If you have indicated overlap or missing background knowledge from related courses in Sect. 4, then pls. List relevant courses:
7. What did you like the best about the course?

8. What topics from the course would you like to be discussed in more details?  
(Specify minicomodule and topic)

9. What additional topics would you like to see included in this course?  
(given we had no timing restrictions)?

10. What else can be improved in the course / what did you NOT like?

11. Any Additional Comments:

THANKS!
